

# Pipe fittings Sprint® Series S2000

Connections G1/8, G1/4, G3/8, G1/2  
R1/8, R1/4, R3/8, R1/2

4

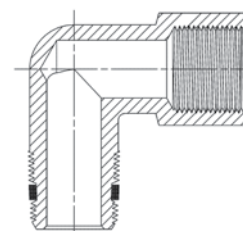

The Sprint® fittings are available in 15 different models, and all have conical threads. The characteristic of this series is that the conical thread has an incorporated torque system which avoids the use of liquid glues or P.T.F.E. band, avoiding the operator to loose time in the mounting phases.

The system moreover guarantees extreme cleanliness in the mounting phase and the possibility to connect and disconnect repeatedly the fitting, without compromising the seal on the thread.
